

# **COMMUNITY NETWORKING**

The League of Women Voters of  
Buffalo/Niagara Experience

---

## **STEPS WE TOOK:**

- **We contacted organizations, attended meetings and listened to their needs .We volunteered out members and materials to help fill those needs.**
- **We held a meeting on 1-27-20 of representatives of these organizations where we shared our missions around voting and distributed the notes on that meeting along with a contact list.**
- **We developed relationships with members of these organizations, some of which have become friendships.**
- **We continue our work with these organizations, and are reaching out to more organizations in our two counties.**

# **OUR NETWORKS: A HISTORY**

**League of Women Voters of Buffalo/Niagara**

---

- **We assigned a liaison with each of the 11 colleges in our two counties.**
- **In 2022 we provided voter registration, education, and information tabling at 9 campuses, and provided voter registration training to students of one club. Over 200 new voters were registered during August and September 2022.**
- **The liaisons met in April and agreed to contact student affairs staff at their colleges to pre-plan for August and September 2023.**

# **COLLEGE PROGRAMS**

---

- **We invite all members to volunteer for any event we need to staff.**
- **We think of ways to involve members who are homebound.**
- **We invite members of our network organizations to join our League. We also offer free memberships to all students.**

**INVOLVING OUR MEMBERS—  
ATTRACTING NEW MEMBERS**

---
