League of Women Voters of NYS Responds to Governor Hochul's 2024 State of the State

“The League of Women Voters of New York State was disappointed that greater focus on election integrity and upholding democracy was not included in the Governor’s State of the State. At the heart of every democracy is its citizens’ ability to let their voices be heard through voting. The 2024 election will be a critical time to ensure that all New Yorkers are able to cast their ballot and have their vote count. We hope to see adequate funding for boards of elections in the soon-to-be-released Executive Budget and a commitment to expanding voting rights during this Legislative session.

We look forward to seeing the details of Governor Hochul’s commitment to fund League environmental priorities such as expanding solar access and ensuring the state meets emissions targets. The League appreciates the mention of a dedication to ensuring access to abortions for all pregnant people, fair wages, and equality for all New Yorkers.”
